ABOUT US

United Contracting Chemicals Company is a leader in the sales and distribution of specialty chemicals and equipment in the KSA and GCC. We represent some of the most reputable companies in the world in areas that include coating and construction chemicals, Plastics and Rubber, Petrochemicals and Refining, Water Treatment Chemicals, food additives, and equipment. We have a full-fledged team comprising qualified sales and management personnel, with strong back-office support and an in-house logistics/operations department. We have our headquarters in Dammam, with well-equipped, warehouses across the Kingdom of Saudi Arabia.

Uchem has gained an excellent reputation for high-quality products, which we provide to our customers with timely delivery and dedicated services, thereby adhering to our principle: "Pursuit of Excellence".

VISION

To be a competitive leader in the chemical sector locally and globally by constantly developing and upgrading our products while remaining true to our core values.

MISSION

To be a competitive leader in the chemical sector locally and globally by constantly developing and upgrading our products while remaining true to our core values.

VALUES

Customer Focus: We help our customers strengthen their competitive position and performance by focusing on their individual needs.

Personal Engagement: We achieve results through individual commitment, professional development, and entrepreneurial behavior.

Team Orientation: We rely on the strength of teamwork to achieve synergies and realize our full potential.

Innovation: Through our extensive knowledge and experience, we continuously bring to market novel products, services, and applications.

Integrity and Sustainability: We are a trustworthy, loyal and respectful partner in all our internal and external relationships.

Pigments

- Titanium Dioxide,
- Anti-Corrosive Pigments,
- Carbon black,
- Color Pigments,
- Pigment Dispersions
- Special Effect Pigments

Resins and Polymer Emulsion

- Acrylics and Acrylic copolymer Emulsion,
- Alkyd Resins,
- Dryers,
- Epoxy Resins,
- Poly Urethane Resins,
- Melamine Resins and Poly Ester Resins etc.

Fillers/Extenders/ Reinforcements

- Calcium carbonate
- Silicon dioxide
- Talc,
- Aluminium silicate,
- Kaolin clay, es,,

Thickeners

- Cellulose Thickeners
- Associate Thickeners
- Clay-based Thickeners
- Anti-settling agents

- Surfactants and Dispersants
- Industrial Solvents
- Biocides
- Neutralizing agents
- Performance Additives

CONSTRUCTION CHEMICALS

- Concrete Admixtures
- Redispersible Polymer Powder
- Air Entraining Agent
- Cellulose Ether
- Cellulose fiber
- Different Kinds Of Cements
- Grinding Aid for Cement
- Sodium Naphthalene Powder
- Sodium/Calcium Lignosulphonate
- Sodium gluconate
- Polycarboxylate Ether (PCE)
- Hydrophobic Agent
- Pigments and fillers
- Rheology Modifier

All kinds of polymer resins.

- Polypropylene (PP)
- Poly Ethylene (PE)
- Poly Vinyl chloride (PVC)
- Poly Carbonate (PC)
- Poly Ethylene Terephthalate (PET)
- Poly Styrene (PS)
- Ethylene Vinyl Acetate (EVA)

All Kinds of Rubber

- Styrene Butadiene Rubber (SBR)
- Acrylonitrile Butadiene Rubber (NBR)
- Polybutadiene Rubber (BR)
- High Styrene Rubber (HSR)
- Chloroprene Rubber (CR)
- Natural Rubber (NR)

Additives, Pigments, and fillers

- Accelerators
- Antioxidants,
- UV absorbers
- Cross-linking
- Processing agents
- Curing Agents
- Plasticizers
- Titanium dioxide
- Silica, Talc
- Carbon Black etc.

PETROCHEMICAL AND REFINING

- Organic peroxides and initiators
- Catalysts and catalyst support media
- Metallic stearates,
- Nucleating and clarifying agent
- special solvents
- Anti-oxidants, antistatic agents,
- Adsorbents, desiccants
- Water softening and water treatment chemicals

FIBER GLASS

- Glass fibers
- Polymer Resins
- Reinforcements and Fillers
- Additives

WATER TREATMENT CHEMICALS

- Algaecides
- Antifoams
- Boiler water chemicals
- Coughulants
- Corrosion inhibitors
- Disinfectants
- Defoamers
- Flocculants
- Neutralizing agents
- Oxidants
- Oxygen scavengers
- pH conditioners
- Resin cleaners
- Scale inhibitors

EQUIPMENT AND MACHINERY

- Lab Equipment, Production and Process Equipment, Packaging Equipment for Coating industry, Plastic and Construction Chemical Industry

We Partner With The Most Renowned Companies
In Their Respective Fields.

WE SUPPLY PRODUCTS MADE BY THE FOLLOWING COMPANIES
